#### IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

U.S. Application No 10/506,412 (conf 8468)

Filed 25 July 2005

Art Unit 1762

Applicants: Smith et al.

Examiner: Fredrick J. Parker

For: FUEL CELL MEMBRANES AND CATALYTIC LAYERS

Response to Communication of 23 August 2006

Commisssioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

This is in response to the Communication of 23 August 2006 indicating an incomplete response to the Final rejection of 19 July 2006.

Applicants have claimed priority from two U.S. Provisional applications, 60/360,929 filed 1 March 2002 and 60/362,842 filed 11 March 2002.

A question has been raised about the priority claims, particularly with respect to the '842 provisional application. This question was first raised in a Filing receipt dated 7 September 2005 wherein it was noted that the '842 application "is not consistent with PTO records". Attached hereto are copies of the filing receipts of the two provisional applications. It is believed that the priority claims are correct. However, applicants invite the USPTO to correct the priority claims if the data on these filing receipts is incorrect.
